

Parker Laboratories. The Sound Choice in Patient Care™

ThermoFisher
SCIENTIFIC

The world leader in serving science

Ultrasound Products

Parker Laboratories is a recognised world leader in the manufacture of accessories and supplies for the ultrasound and electromedical markets. Thermo Fisher is proud to offer you a range of Parker products to meet all your ultrasound consumable needs. All Parker products are designed to be latex free and hypoallergenic.

Aquasonic 100® Ultrasound Transmission Gel

World standard for medical ultrasound transmission, Aquasonic 100 is the widely used gel for diagnostic and therapeutic medical ultrasound. Recommended for all procedures where a viscous gel is required.

Features:

- Unique “can’t be copied” formula is hypoallergenic, bacteriostatic, non-sensitising and non-irritating
- Correct acoustics for the broad range of frequencies used
- Completely aqueous, will not stain clothing or damage transducers
- No formaldehyde
- Not a spermicide
- Used and recommended by leading manufacturers of medical ultrasound equipment worldwide

Item Code	Description	UOM
PKR01-50	Aquasonic 100; 5L SONICPAC with refillable dispenser	1/Box
PKR01-08	Aquasonic 100; 250mL bottle	12/Box
PKR01-20	Aquasonic 100; 20g sachet	100/Box

Sterile Aquasonic 100® Ultrasound Transmission Gel

World Standard for Sterile ultrasound gel. Sterile Aquasonic® 100 is the recommended for diagnostic and therapeutic ultrasound applications when sterility is indicated.

Features

- Overwrapped, sterilised foil pouches
- Acoustically correct for the broad range of frequencies used in medical ultrasound
- Non-irritating, hypoallergenic
- Completely aqueous, will not stain clothing or damage equipment
- Not a spermicide

Item Code	Description	UOM
PKR01-01	Sterile Aquasonic 100; 20g overwrapped, sterilised foil pouches	48/Box

Aquasonic Clear® Ultrasound Gel

Clear ultrasound gel. Based on the same “can’t be copied” formula of the World Standard, Aquasonic 100 Ultrasound Transmission Gel, without fragrance or colour. For diagnostic and therapeutic medical ultrasound examinations.

Features:

- No fragrance or colour
- Correct acoustics for the broad range of frequencies used
- Hypoallergenic, bacteriostatic, non-irritating
- Water soluble
- No formaldehyde
- Not a spermicide

Item Code	Description	UOM
PKR03-08	Aquasonic Clear; 250mL bottle	12/Box
PKR03-50	Aquasonic Clear; 5L SONICPAC with refillable dispenser	1/Box

**Transeptic®
Cleaning Solution**

Multi-purpose spray for professional use when cleansing ultrasound transducer/probe surfaces between procedures. Does not cause transducer membrane swelling.

Features:

- Convenient clear spray dispenser
- Does not contain phenol or glutaraldehyde
- Accepted for use by manufacturers of ultrasound equipment

Item Code	Description	UOM
PKR09-25	Transeptic Cleaning Solution; 250mL clear spray bottle	12/Box

**Scan®
Ultrasound Gel**

Our exclusive dual-viscosity formula allows SCAN to be applied as a gel and scanned as a fluid. For medical ultrasound procedures when a less viscous gel is desired.

Features:

- Accoustically correct, provides superior transmission of ultrasound waves
- Completely aqueous, will not stain clothing, damage equipment or irritate skin
- Hypoallergenic, bacteriostatic with no formaldehyde

Item Code	Description	UOM
PKR11-28S	SCANPAC contains: 4 x 3.8L of SCAN, 2 refillable dispensers and 1 pump	4/Box

**Polysonic®
Ultrasound Lotion**

Multi-purpose ultrasound lotion with superior coupling efficiency. Recommended for all medical ultrasound procedures where a lotion is preferred.

Features:

- Rich moisturising formula will not dry or irritate skin
- Comfortable & pleasing to patient and ultrasound practitioner
- Accoustically correct for the broad range of frequencies used in medical ultrasound
- Will not damage equipment or clothing
- Hypo-allergenic, bacteriostatic
- No salt, no formaldehyde

Item Code	Description	UOM
PKR21-08	Polysonic Ultrasound Lotion; 250mL bottle	12/Box
PKR21-28	Polysonic Ultrasound Lotion; 3.8L bottle	4/Box

**Aquagel®
Lubricating Gel**

Clear, water-soluble, non-irritating lubricant. Compatible with natural and synthetic substances... the international choice for a non-sterile lubricating gel.

Features:

- Convenient flip cap
- For hospital, medical and personal use
- Economical 2 litre dispenser
- Non-runny, viscous gel
- Not a contraceptive
- Hypoallergenic, bacteriostatic

Item Code	Description	UOM
PKR57-05	Aquagel Lubricating Gel; 142g tube	20/Box

Eclipse® / Eclipse 3D Probe Cover - Latex Free

A soft, latex-free, disposable probe cover; one that is designed for standard ultrasound probes/transducers, and the other is designed specifically for 3D/4D ultrasound probes/transducers. Both are pre-gelled inside with Aquasonic 100 Ultrasound transmission Gel.

Features:

- Pre-gelled inside with Aquasonic 100 Ultrasound Transmission Gel
- Latex-free, non-irritating, non-sensitising
- Only one probe cover is required for each procedure

Item Code	Description	UOM
PKR38-01	Eclipse Probe Cover - Latex Free; 64 x 44 x 241mm	100/Box
PKR38-03	NEW Eclipse 3D Probe Cover - Latex Free; 83 x 43 x 241mm	100/Box

Aquaflex® Ultrasound Gel Pad

A 2cm x 9cm aqueous, flexible, disposable ultrasound standoff for use in difficult to visualise and near field areas, or when gels alone won't do. Disposability eliminates the risk of cross contamination in diagnostic and therapeutic ultrasound procedures.

Features:

- Requires no gel, except in prolonged procedures
- Requires only gentle, even pressure
- Cushions sensitive areas
- Hypoallergenic, Bacteriostatic
- Easy to use
- Disposable

Item Code	Description	UOM
PKR04-02	Aquaflex Ultrasound Gel Pad; 2cm x 9cm pad	6/Box

How to order your Parker products

- » Order online at www.thermofisher.com.au/godirect
- » Contact customer service on 1300 735 292 or email InfoHealthcareAu@thermofisher.com
- » Contact your local representative

Thermo Fisher is your one source for healthcare and diagnostic consumables specifically focussed to hospital, medical, chiropractic, dental and veterinary markets. We complement our manufactured products with key distributed brands resulting in a reliable and trusted supply chain supporting the critical activities of our customers.

Electromedical Products

Spectra® 360 Electrode Gel

The only salt free and chloride-free electrically conductive gel, recommended for all electromedical procedures. Salt-free characteristics make it particularly suitable for long-term applications. Spectra 360 differs significantly from all other electrically conductive media...it works by wetting the skin, thereby reducing skin resistance.

Features:

- Non-gritty STAY-WET® formula allows for prolonged use without re-application
- Product of choice for ECG, TENS, monitoring and pediatrics
- Non-irritating, hypoallergenic, bacteriostatic
- Salt-free, no sodium ion transfer
- Product of choice for conductive rubber/carbon electrodes

Item Code	Description	UOM
PKR12-02	Spectra 360 Electrode Gel; 60g tube	12/Box
PKR12-08	Spectra 360 Electrode Gel; 250g tube	12/Box

Signagel® Electrolyte Gel

Highly conductive, multi-purpose electrolyte meets all the standards of the ideal saline electrode gel. Recommended for ECG, defibrillation, biofeedback and EMG.

Features:

- Highly conductive
- Hypoallergenic, bacteriostatic
- See-thru tube with stand-up cap lets you know how much SIGNAGEL is left
- Water soluble, non-staining, non-gritty

Item Code	Description	UOM
PKR15-25	Signagel Electrode Gel; 250g tube	12/Box

Signacreme® Electrolyte Creme

Highly conductive cream electrolyte for use in electromedical procedures where a cosmetic quality cream is preferred.

Features:

- Cosmetic quality, pleasing to patients
- Non-irritating, hypoallergenic, bacteriostatic
- Conveniently packaged in refillable see-thru dispenser with flip-top cap

Item Code	Description	UOM
PKR17-05	Signacreme Electrolyte Creme ; 142g tube	12/Box

Signaspray® Electrolyte Solution & Skin Prep

Highly conductive, economical spray electrolyte and non-gritty skin prep.

Features:

- The ideal electrolyte for use with muscle stimulation equipment
- Superior non-gritty skin prep
- Bacteriostatic, hypoallergenic, non-staining
- No residue build-up
- Easy to apply, easy to clean up
- Clear bottle lets you know how much Signaspray is left

Item Code	Description	UOM
PKR18-25	Signaspray Electrolyte Solution & Skin Prep ; 250g clear spray dispenser bottle	12/Box

Tensive®

Conductive Adhesive Gel

Safe, non-flammable, odourless, conductive, adhesive gel. Recommended for TENS, EMG, EEG and other electromedical procedures.

Features:

- Eliminates tape and tape irritation
- Conducts immediately, no need to wait
- Non-flammable, no solvent odour
- Best adhesive gel available
- Hypoallergenic, bacteriostatic, non-irritating
- Water soluble, easily removed with water

Item Code	Description	UOM
PKR22-60	Tensive Conductive Adhesive Gel; 50g tube	12/Box

Redux®

Electrolyte Gel

Non-abrasive, water-based gel for routine ECG and defibrillation.

Features:

- Highly conductive
- Water soluble, non-staining, non-gritty

Item Code	Description	UOM
PKR65-04	Redux Electrolyte Gel; 114g tube	10/Box

Redux®

Electrolyte Paste

Water-based, abrasive gel for short term monitoring, ECG and defibrillation.

Features:

- Highly conductive
- Water soluble

Item Code	Description	UOM
PKR67-05	Redux Electrolyte Paste ; 142g tube	10/Box

Redux®

Electrolyte Creme

For routine ECG.

Features:

- Cosmetic quality , pleasing to patients
- Non-irritating
- Highly conductive electrode cream

Item Code	Description	UOM
PKR66-04	Redux Electrolyte Creme ; 114g tube	10/Box
