Sartorius™ Entris™ balances

Get the quality and reliability of a Sartorius balance, but only pay for the features you really need

- User-friendly operation: Easy navigation with function keys for ease of use, high contrast and backlit display offer excellent visibility
- Integrated applications: Including underpan weighing, animal weighing and counting
- Monolithic weigh cell for long-term high accuracy
- Optional internal adjustment for optimal weighing accuracy and operating convenience

Item Code	Description	Unit	Price
SARENTRIS124I-1S	Entris balance 120 g x 0.1 mg internal calibration	EA	\$2,400.00
SARENTRIS224I-1S	Entris balance 220 g x 0.1 mg internal calibration	EA	\$2,560.00
SARENTRIS323I-1S	Entris balance 320 g x 1 mg internal calibration	EA	\$1,685.00
SARENTRIS2202I-1S	Entris balance 2200 g x 0.01 g internal calibration	EA	\$1,685.00
SARENTRIS6202I-1S	Entris balance 6200 g x 0.01 g internal calibration	EA	\$2,240.00
SARENTRIS5201-1S	Entris balance 5200 g x 0.1 g external calibration	EA	\$1,285.00
SARENTRIS8201-1S	Entris balance 8200 g x 0.1 g external calibration	EA	\$1,375.00

Thermo Scientific CO₂ orbital shaker

Thermo Scientific™ CO₂ resistant orbital shakers provide reliable around-the-clock operation ideally suited to keep your cells alive and flourishing within your working environment.

- Convenient external control box with LED display allows for easy adjustments without opening the incubator door
- Specially treated mechanical components protected from up to 20% CO₂ and 95% humidity conditions
- Minimal heat dissipation ensures conditions within the CO₂ chamber are not affected
- An extensive selection of accessories to suit most applications
- 2 year warranty

Item Code	Description	Unit	Price
BAR88881102	CO ₂ Orbital shaker requires platform and clamps	EA	\$1,540.00
BAR88881104	CO ₂ Orbital shaker with universal platform and flask clamp starter kit	EA	\$1,895.00

Pipette combo deal

With every S1 pipette filler purchased, receive 3 cases each of 5 mL and 10 mL serological pipettes at no extra cost*

Thermo Scientific™ Nunc™ serological pipette

- PET filter plug prevents aerosol or liquid contamination of the pipetting device
- Certified RNase/DNase free, human DNA free, non-cytotoxic and non-pyrogenic

Thermo Scientific S1 pipette filler

- Available in five colours
- Backlit LCD display showing battery life and adjustable speed settings
- Free wing stand MAT9069 for each pipette filler

Two year warranty with web registration

*Quote "Pipette combo deal" when placing your order. Free serological pipettes only available when S1 pipette is purchased at the promo price

Omni Sonic Ruptor 400 ultrasonic homogeniser

A total system for ultrasonic disruption offering precision engineering and a complete set of accessories to accommodate a wide array of applications.

- Automatic tuning ensuring the homogeniser is always working at maximum efficiency
- Process 250 µL to 1 L
- Select either constant power mode for fast processing or pulse mode for heat sensitive sample
- Unit includes control module and ultrasonic transducer
- Processing tip required

Item Code	Description	Unit	Price
OMN18-000-220	Omni Sonic Ruptor 400 ultrasonic homogeniser	EA	\$6,180.00
OMNOR-T-156	Micro processing tip for volumes 250 µL to 10 mL	EA	\$865.00
OMNOR-T-375	Processing tip for volumes 10 mL to 250 mL	EA	\$995.00
OMNOR-T-500	Processing tip for volumes 10 mL to 300 mL	EA	\$1,070.00
OMNOR-T-750	Processing tip for volumes 25 mL to 500 mL	EA	\$1,070.00
OMNOR-T-1000	Processing tip for volumes 50 mL to 1 L	EA	\$1,195.00

Precision metering and dispensing, worry-free performance

Catalyst™ peristaltic pumps offer accurate dispensing from a simple, ready-to-use pump

- Contamination free pumping: the fluid contacts only the tubing
- Accurate control of flow and dosing, the digital RPM display provides repeatable control
- Robust motor and drive for low maintenance and long term operation
- FH100D and FH100DX models designed for critical metering and dispensing with a multiline LCD display for easy programming

Item Code	Description	Unit	Price
THE77722-00	FH100 Catalyst pump for thin wall tubing	EA	\$2,725.00
THE77722-02	FH100X Catalyst pump for thick wall tubing	EA	\$2,725.00
THE77722-10	Programmable FH100D Catalyst pump for thin wall tubing	EA	\$3,995.00
THE77722-12	Programmable FH100DX Catalyst pump for thick wall tubing	EA	\$3,995.00

Thermo Scientific™ Shake 'n' Stack™ hybridisation ovens

Stackable, space-saving design and excellent uniformity are ideal for molecular biology labs

- Accurate temperature control and excellent temperature uniformity for improved experimental results
- Interchangeable rotisserie and shaking platform for hybridisation and washing procedures
- Temperature range 35 to 85 °C and speed range 5 to 15 rpm
- Capacity for 10 medium bottles

Item Code	Description	Unit	Price
HYB6240	Shake 'n' Stack oven with rotisserie and shaker platform	EA	\$4,330.00
HYB6424	Shake 'n' Stack oven with rotisserie	EA	\$4,295.00

Thermo Scientific™ Heratherm™ General Protocol incubators

Ideally suited for routine applications, with sample safety in mind

- Gravity convection provides gentle air flow and minimal drying out
- Large fluorescent user interface for easy temperature setting and viewing of parameters and alarm status
- 24 hour timer function with automated on/off
- Over temperature alarm for sample protection

Item Code	Description	Unit	Price
HEA51028130	IGS60 Heratherm General Protocol incubator 75 L	EA	\$2,080.00
HEA51028131	IGS100 Heratherm General Protocol incubator 117 L	EA	\$2,775.00
HEA51028132	IGS180 Heratherm General Protocol incubator 194 L	EA	\$3,630.00
HEA51029322	IGS400 Heratherm General Protocol incubator 405 L	EA	\$5,225.00
HEA51029334	IGS750 Heratherm General Protocol incubator 747 L	EA	\$7,740.00

Thermo Scientific™ Precision™ unstirred waterbaths

Precision redefined for your lab; the ultimate in performance and reliability.

- Simple to operate and monitor with icon-based graphical display and four stored pre-sets
- Baths supplied with clear polycarbonate lid, diffuser tray, rubber duck and drain hose for tanks 10 L and above
- Adjustable alarm for over temperature protection
- 2 year warranty

Item Code	Description	Unit	Price
BARTSGP02	Precision unstirred bath 2 L	EA	\$970.00
BARTSGP05	Precision unstirred bath 5 L	EA	\$1,045.00
BARTSGP10	Precision unstirred bath 10 L	EA	\$1,235.00
BARTSGP20	Precision unstirred bath 20 L	EA	\$1,390.00
BARTSGP28	Precision unstirred bath 28 L	EA	\$1,425.00

Thermo Scientific™ Savant™ DNA130 vacuum concentrator

Compact and integrated vacuum concentrator for sample safety and reproducible results.

- User-friendly interface with three user defined programs that can be modified and saved
- Supplied with 36 x 1.5 mL rotor, perfect for DNA/RNA samples
- Built in oil-free pump provides gentle draw down to ultimate vacuum setting with no solvent bumping
- PTFE-coated chamber resists chemicals and cleans easily
- Optional chemical traps and cartridges to trap radioactive chemicals and chemicals

Item Code	Description	Unit	Price
SAVDNA130-230	DNA130 vacuum concentrator includes rotor and pump	EA	\$8,350.00

Easy to use Quickfit water still

The Quickfit® water still combines high performance with value for money, featuring high-quality Pyrex® glass boiler and condenser.

- Easy to install and easy to use
- Reliable operation – proven quality components
- High-quality distillate complies to ASTM and ISO standards
- Safe operation – heating element has two built-in safety thermostats
- Easy to clean – no glass dismantling required
- CE marked

Item Code	Description	Unit	Price
PYRQWS4	Water still 4 L/hr 230V	EA	\$1,750.00

High degree of confidence with Bellingham + Stanley refractometers

Refractometric analysis is a fast and reliable way to ensure product quality with high degree of confidence. Available in hand held or benchtop formats, refractometers are the perfect solution to fast quality confirmation of solid and liquid samples.

- Hand held refractometers ideal for lab, factory and field; simple and rugged
- User calibrated by water and or standards (available separately)
- User management ensures reliable implementation by untrained technicians
- Service centre for calibration and maintenance

Item Code	Description	Unit	Price
BLS38-02	Hand held digital refractometer OPTi 0-54 Brix	EA	\$430.00
BLS38-34	Hand held digital refractometer OPTi 0-85 Brix	EA	\$585.00
BLS38-A1	Hand held digital refractometer OPTi 0-95 Brix	EA	\$973.00
BLS19-30	RFM330-T Peltier temperature-controlled refractometer 2 dp 0-100 Brix	EA	\$14,450.00
BLS19-40	RFM340-T high precision Peltier temperature controlled refractometer 3 dp 0-100 Brix	EA	\$15,482.00

Experience the improved FreeZone™ freeze dryer range from Labconco

Designed to handle the lyophilisation needs of research and pilot plant laboratories.

- Lyo-Works OS with large touch screen for easy setting of multi-step programs and on-board data collection and graphing for consistent high quality results
- Ice capacity 2.5-18 L with ice collectors from -50 to -105 °C in stainless steel or PTFE designed to match your application
- Plug and play drying accessories include flasks, manifolds, bulk tray dryers and stoppering tray dryers
- Level specific security lock out prevents changes to programs and other system parameters

Contact us today to discuss your application

20% off the list price of Fisherbrand sieves

Introducing our new range of Fisherbrand™ sieves, combining quality with affordability.

- Made from stainless steel or brass
- Available in both wire mesh and perforated plate
- Extensive variety of diameters and apertures
- Suitable for a wide range of applications
- All sieves supplied with a certificate of conformity

KONICA MINOLTA

Versatility with CM-5 and CR-5 spectrophotometer

Stand alone full-featured spectrophotometer with maximum flexibility and versatility that covers all your applications

- Extremely easy operation with automatic calibration
- Top-port concept for reflectance measurements as well as large transmission chamber for liquids and solids
- “Operation Wizard” with real-time onscreen user guidance and storage of user settings and data on USB stick

Item Code	Description	Unit	Price
MINA168-129	CM-5 spectrophotometer	EA	\$24,895.00
MINA168-213	CR-5 spectrophotometer	EA	\$19,654.00

Get the right colour data, not subjective scores

Reliable colour measurement at the click of a button ensures quality, consistency and confidence in your results with Konica Minolta colour meters.

Item Code	Description	Unit	Price
MIN1878-291	CR-400 colour meter including data processor	EA	\$12,950.00
MIN1878-864	CR-400 measuring head only	EA	\$10,150.00
MIN1878-297	CR-410 colour meter including data processor	EA	\$12,950.00
MIN1878-873	CR-410 measuring head only	EA	\$10,150.00
MINA80F-217	CR-20 colour meter	EA	\$4,915.00
MINA80F-107	CR-10 Plus colour meter	EA	\$4,195.00

*Optional attachments for granular, rough, liquids, pastes and irregular surfaces

Lightweight and water resistant chlorophyll meter

SPAD-502 Plus hand held chlorophyll meter is lightweight and water resistant. Convenient for laboratory and field measurement of the chlorophyll content of leaves without causing damage to the plant. Measurements are taken simply by closing the measuring head on the leaf. Since the leaf is not cut off or damaged in any other way, the same leaf can be measured as the plant grows.

Item Code	Description	Unit	Price
MINA1RT-206	SPAD-502 Plus chlorophyll meter	EA	\$2,883.00

Thermo Scientific™ Heratherm™ heating and drying ovens - Efficient, safe, and easy

- General Protocol: Temperature range up to 250 °C, optimally suited for everyday heating and drying applications
- Advanced Protocol: Temperature range up to 330 °C, programmable, and added boost function for accelerated heat-up in applications requiring ultimate accuracy and additional capabilities
- Energy saving: Up to 20% less energy than previous models, thus reducing energy costs and the environmental impact of your research
- Space saving: Very small footprint to interior volume ratio, flexible shelving, and stackable with an optional stacking kit

- Gravity convection for gentle drying and sensitive samples
- Also available in mechanical convection for fast drying and superior chamber spatial uniformity

Item Code	Description	Unit	Price
HEA51028139	General Protocol oven 65 L 50 to 250 °C 10 amp	EA	\$1,950.00
HEA51028140	General Protocol oven 105 L 50 to 250 °C 15 amp	EA	\$2,900.00
HEA51028141	General Protocol oven 176 L 50 to 250 °C 15 amp	EA	\$3,630.00
HEA51028142	Advanced Protocol oven 61 L 50 to 330 °C 10 amp	EA	\$2,800.00
HEA51028143	Advanced Protocol oven 99 L 50 to 330 °C 15 amp	EA	\$3,720.00
HEA51028144	Advanced Protocol oven 168 L 50 to 330 °C 15 amp	EA	\$4,500.00

Furnaces that help you perform the most critical and everyday applications

Designed with safety in mind, Thermo Scientific furnaces offer capacities of 1.3 L up to 45 L and temperature ranges up to 1200 °C. With temperature control options to meet your application needs, Thermo Scientific furnaces have all the features needed to perform applications from everyday to the most critical.

- Adjustable alarm for over temperature protection
- Door safety switch stops power when door is opened
- 1200 °C max temperature

Item Code	Description	Unit	Price
BARF6020C-33	Muffle furnace 14 L with B1 controller max temp 1200 °C	EA	\$5,136.00
BARFB1410M-33	Bench top muffle furnace 2.1 L max temp 1100 °C, drop-down door	EA	\$2,283.00
BARFD1530M-33	Bench top muffle furnace 2.2 L max temp 1200 °C B1 controller door swings upward	EA	\$2,550.00
BARF30420C-33-80	Large tabletop muffle furnace 45 L max temp 1093 °C C1 digital program control no plug, no cable, requires hardwiring	EA	\$10,715.00

Full speed ahead with NanoDrop One

Do your best work with Thermo Scientific™ NanoDrop™ One UV-Vis microvolume spectrophotometer and save

- Quantify and qualify DNA, RNA, and protein in seconds using only 1-2 μL of sample
- Identify contaminants in your samples (protein, phenol, guanidine salts) with built-in Thermo Scientific™ Acclaro™ Sample Intelligence technology
- Annual self calibration check easily available with performance verification solution included with unit
- Save time with Auto-Measure mode

Item Code	Description	Unit	Price
NDTND-ONE-PRM18	NanoDrop One microvolume spectrophotometer	EA	\$12,325.00
NDTND-ONEC-PRM18	NanoDrop OneC microvolume spectrophotometer with cuvette reader	EA	\$14,175.00

Break the glass habit

Thermo Scientific™ Nalgene™ plastic labware value pack

- A variety of everyday lab items at one low price
- Chemically resistant
- Won't shatter or break
- Includes: 6x straight-sided PPCO jars (500 mL), 4x unitary LDPE wash bottles (500 mL), 4x PPCO graduated cylinders (2-100 mL, 500 mL, 1 L), 5x PPCO Griffin low-form beakers (50, 100, 250, 600, 1000 mL), 2x 100 mL Nalgene™ Unwire™ blue half-rack for 30 mm tubes

Item Code	Description	Unit	Price
NAL1350-0001	Nalgene plastic labware value pack	EA	\$175.00

Starna® holmium reference cell

For assessing the wavelength accuracy of UV/visible spectrophotometers

- Holmium oxide in perchloric acid sealed in a quartz cell
- 240 nm to 650 nm, 14 traceable absorbance peaks
- Supplied with a certificate of analysis and NIST traceability

Item Code	Description	Unit	Price
STARM-HL	Starna holmium oxide liquid reference cell	EA	\$995.00

Disposable B.O.D. bottles

- Disposable - more convenient
- Saves labour having to wash after every test
- No chance of contamination between batches
- Increases efficiency
- Bottle is recyclable

Item Code	Description	Unit	Price
ENXD1001	B.O.D bottles disposable PET	100pcs	\$165.00

LabServ sterile stomacher bags

- Robust 110 µm construction, very resistant to cuts or punctures
- Reinforced welded seal for extra security and bag integrity
- Manufactured under ISO9001:2000
- Safe, reliable and economical solution for sterile homogenising
- Quality control certificates for complete assurance

Item Code	Description	Unit	Price
LBSSTBAG001	Stomacher bags 400 mL sterile 1000 pcs	EA	\$110.00
LBSSTBAG002	Stomacher bags 3500 mL sterile 400 pcs	EA	\$110.00

Stock up on lab bottles

Fisherbrand graduated laboratory bottles with polypropylene screw caps and pouring ring

- Borosilicate glass and autoclavable
- GL 45 screw thread
- Permanent white enamel marking spot

Item Code	Description	Unit	Price

Protect your lab for \$1*

Take advantage of our special price on selected Thermo Scientific™ Nalgene™ Super Versi-Dry™ surface protectors and receive one free case of Nalgene PPCO Griffin beaker variety pack with every purchase.

Super Versi-Dry surface protectors can help make your lab a safer place by quickly absorbing spills and cushioning breakable labware. Use Versi-Dry as a bench protector, shelf liner, cabinet liner, or for wiping up isolated spills, protecting your lab surfaces from damage and contamination.

- Cushioned surface minimises breakage of fragile glassware when dropped or tipped over
- Thousands of super absorbent Thirsty-Cells™ quilted into the surface quickly absorb spills
- The cloth-like top layer is longlasting and will not fall apart, even when wet
- Skid-resistant PE backing prevents chemicals from breaking through to protected surfaces beneath
- Resists chemical spills e.g. acetone, chloroform, xylene, common acids 10%, methylene chloride and more

Nalgene Griffin low-form plastic beaker variety pack

- Seven virtually unbreakable PPCO beakers, autoclavable, with no-drip spout design
- Silk screened with graduations, size code, maximum temperature for easy identification and safe use

*Based on price per sheet of NAL74018-00

Item Code	Description	Unit	Price
NAL74018-00	Versi-Dry super absorbent lab soaker fume hood mat 51 cm x 46 cm sheets	350 pcs	\$350.00
NAL74050-00	Versi-Dry super absorbent lab soaker 30 m x 51 cm wide roll	4 pcs	\$380.00
NAL1201-1234	PPCO Griffin low-form beaker variety pack Includes one each size: 50 mL, 100 mL, 150 mL, 250 mL, 400 mL, 600 mL and 1000 mL	EA	FREE

Celebrating 2 years of Alfa Aesar by Thermo Fisher Scientific

Alfa Aesar offers over 38,000 research chemicals, metals, and materials, including over 5,000 biochemical products to provide you with a complete selection for all your research needs.

You have so many choices when it comes to purchasing chemicals, and we are confident that if you give us a try you will be very satisfied with our products and our service. In fact, we'll knock your socks off!

To celebrate, we'll knock your socks off with Alfa Aesar chemistry socks when you order \$300 of Alfa Aesar branded products*

Claim your own pair of socks at:

thermofisher.com.au/knockyoursocksoff

Fisher Chemical™ acids for analysis

20% off
list price

Improve your detection limits with our analytical grade acids

We can supply the type of acid you need, in the grades, sizes and packaging that meet your requirements.

- Low cadmium, lead and mercury levels
- Suitable for use in environmental and food applications
- PPM to PPB level detection
- Packaged in HDPE bottles, for safer, easier handling and to maintain quality

Jerrycans for medium and large volume sample collection

- Collection volumes 1, 2.5, 4 or 5 L
- HDPE container with polypropylene cap (caps sold separately)
- Jerrycans are dangerous goods approved
- 4 L and 5 L options suitable for 24 hour urine collection
- Cap sold in a variety of colours

NEW

Aralab environmental and plant growth chambers

Thermo Fisher Scientific are proud to introduce our new range of environmental and plant growth chambers from Aralab.

The FitoClima Bio units are available in 600 L and 1200 L models, supplied ready to use with no assembly required. With a space-saving and future-proof design, these units provide control and flexibility for any research requirement through time.

- Great environmental control with wide temperature and humidity ranges and airflow control
- Great stability and uniformity of conditions inside chamber
- Maximum flexibility with interior configurations such as shelving and lighting options
- Synoptic screen with self-diagnostic function
- Intuitive 7" touch screen interface and user-friendly software
- High degree of experiment, research, and content protection
- VNC server remote access

thermofisher.com.au/aralab

Durable and shatterproof polycarbonate specific gravity hydrometers

Made from optical quality polycarbonate material, these plain form hydrometers are ideal in situations where rough handling or contamination could be an issue, such as in the food or beverage industries.

- Available in models measuring specific gravity / relative density (g/cm³) of a variety of liquids in various ranges from 1.0 to 1.620
- Lead free ballast
- Individually serialised
- Easy to read black scale on yellow back to help avoid eye fatigue
- Traceable to NIST
- 300 mm long

Note: Polycarbonate hydrometers are not recommended for use with petroleum-based liquids or other corrosives that would potentially affect the plastic material. They should be stored in a clean, dry, safe place and should not be subjected to extreme temperatures.

Superior protection when handling hot or cold laboratory objects

Safely unload your autoclave or apply a safe non-slip grip when handling hot or cold items with mitt and glove options from Bel-Art.

Hot Hand mitts

Hot Hand® mitts provide superior protection when handling hot or cold objects, including dry ice.

- Soft, compliant silicone rubber naturally conforms to hand and object and resists tearing
- Withstands temperatures as high as 260 °C
- Remains flexible at temperatures as low as -57 °C
- One size fits all hands, left or right

Clavies autoclave gloves

Soft, pliant, all-cotton terry cloth gloves are superb for handling hot objects out of the autoclave or oven, or for other heat protection in the lab, school or industry.

- Heat-resistant up to 232 °C; replace hazardous asbestos gloves
- Gauntlets in two lengths provide wrist and forearm protection
- Bright orange colour offers high visibility
- Machine wash or air dry

Extra hazard protection with high risk nitrile disposable gloves

Advanced nitrile formulation of Ansell® Microflex® offers up to 3 times the puncture resistance of latex or vinyl disposable gloves.

- Increased productivity: Non-stick properties are built into the glove formulation to create a resistance to tape or adhesives, and to assist workers with improved efficiency and speed
- Secure and confident: Textured fingers ensures strong efficient grip and excellent worker protection
- Protection from Type 1 allergies: Constructed without natural rubber latex materials or powder to help protect from allergies, skin irritation and dryness
- Approved for use with chemotherapy drugs

Pipette service and calibration

Free* service when your pipette is sent in for calibration

Access expert solutions with Thermo Scientific pipette servicing. We calibrate, repair and service all makes and models of single and multi-channel pipettes from 0. 2 µL to 60 mL.

- *Free service includes pipette health check, cleaning and re-grease
- Being a NATA accredited laboratory ISO17025 you can be confident that our factory trained technicians will calibrate and service your pipettes to the highest level of accuracy and traceability
- Our lab houses five and six place balances as per AS2162.2-1998 as well as our latest Sartorius 12 position multi-channel balances
- As the manufacturer of Thermo Scientific pipettes, you benefit from easier warranty claims plus original and cost effective parts

Download decontamination form and follow the instructions at thermofisher.com.au/pipettecalibration

*Please quote "EOY Service" on decontamination form for free service. All pipettes must be sent with decontamination form.

Upgrade to the latest pipetting technology

Achieve confidence with Thermo Scientific™ ClipTip™ pipettes locking tips firmly to the pipette with a complete seal

Trade in your old pipette and get \$100 for a single channel and \$250 for a multi-channel pipette off the promo price

- Eliminate the frustration of banging tips on your pipette
- Reduce the risk of loose or leaking tips - a complete seal is formed until you eject the tips
- Lightweight handle reduces the risk of RSI
- Enable consistent and reproducible pipetting from user to user
- 5 year warranty with online registration

*Trade-in pipette must be like for like i.e. single channel for single channel

In search of the perfect set of pipettes?

Look no further and choose a Thermo Scientific™ Finnpiquette™ F1 GLP Kit

Get a free pack of 1 mL transfer pipettes with your kit purchase

- Everything you want in your everyday, go-to pipette
- Light weight handle design helps reduce the risk of RSI
- Secure volume lock preventing undesirable volume drifts
- 5 year warranty with online registration

Accurately measure more than one volume with the graduated transfer pipettes. Transfer pipettes graduated at 0.25 mL, 0.50 mL, 0.75 mL and 1 mL.

Need a new bottle top dispenser?

Trade in your old dispenser and receive \$150 off the price of a new Graf dispenser of your choice

Dose liquids accurately from reagent bottles using Graf Optifix® Basic dispenser.

- Excellent for dispensing light acids, bases, aqueous solutions and crystallising liquids
- Has a solid PTFE-encased dispensing piston
- Dispensing cylinder made of glass offering excellent chemical resistance
- Visible dosing procedure
- No metal spring ensures no contamination of the dosing liquid
- Volume up to 500 mL

Free magnetic stir bars with a purchase of a Spinbar restrainer

The Spinbar® restrainer fits ergonomically in one hand, and when placed alongside the outer wall of a mixing vessel it retains and secures the stirring bar in position.

- Confined stirring bar can be retrieved from the vacant container without contaminating the solution after the vessel is drained
- Strong magnet restrains magnetic stirring bars up to 80 mm long

Receive 3 free cylindrical PTFE 6 x 20 mm magnetic stir bars with your restrainer, just quote **“End of year offer”** on your purchase order

Item Code	Description	Unit	Price
BATF37786.1000	Spinbar magnetic stirring bar restrainer	EA	\$25.00
COW1.120	Cylindrical PTFE 6x20 mm magnetic stir bar	EA	3 FREE

Save on polypropylene measuring cylinders

Azlon® polypropylene cylinders are ultra clear polypropylene with good chemical resistance, making them a great alternative to glass cylinders in your laboratory.

- Class B cylinders conforming to ISO 6706
- Clear pin sharp blue printed graduations
- Stable hexagonal base with non-slip anti-suction feature

Top-loading vertical autoclave without drain or water connection

Tuttnauer advanced vertical laboratory autoclaves

The perfect choice for laboratories that require a high-quality vertical autoclave without complex utility connections.

- Designed for lab sterilisation applications used in microbiological, pharmaceutical, food, and chemical industries
- Includes a built-in water reservoir to eliminate the need for drain or water connections (power still required)
- Comes with an innovative multi-colour display for easy reading
- Four volumes available from 31 L to 160 L

Free personal microcentrifuge

Thermo Scientific™ Heraeus™ Pico™ and Fresco™ microcentrifuges

Heraeus Pico and Fresco microcentrifuges combine power, versatility, and convenience in a safe, compact, and easy-to-use lab instrument. Designed to accelerate your routine sample preparation, these units provide high speed and generous capacity along with outstanding safety and convenience.

- Standard 24 x 1.5/2.0 mL rotor also accommodates mini-preps and spin columns
- Unique ClickSeal™ biocontainment rotor lid ensures maximum sample protection
- Intuitive controls and easy-to-read display simplifies operation
- Quiet performance (<56dBA Pico and <50dBA Fresco)

Receive a FREE mySPIN™ 6 personal microcentrifuge (valued at \$265) with every Heraeus Pico or Fresco microcentrifuge purchased at the advertised price
